

The patient who reaches voicemail books somewhere else.

You already pay for the phone to ring. Sanaku catches the leads that currently walk away — under your brand, not ours.

THE LEAK · WHAT ONE LOST LEAD ACTUALLY COSTS

INDUSTRY	LEADS / MO	VALUE / CLOSED CUSTOMER	WALKING AWAY / MO
HVAC / Home Services	60–90	\$1,200–\$2,000	\$6,300–\$15,750
Personal Injury Law	80–120	\$3,500–\$5,000	\$24,500–\$52,500
Dental / Medical	45–65	\$800–\$1,200	\$3,150–\$6,825

Assumes 25% of leads never get a real response and that you close 35% of the ones you do reach — both deliberately cautious. Service businesses miss 25–40% of calls during business hours and 60%+ after hours, and small businesses answer only 37.8% of calls overall.

HOW THE CATCH WORKS

- 01 Missed-Call Text-Back

Handles scheduling and general enquiries. Anything clinical routes to your staff rather than being answered, and urgent callers are directed to call 911.
- 02 After-Hours Intake

Takes appointment requests and general enquiries, routes anything clinical to your staff, and directs emergencies to call 911.

WHAT IT COSTS

Missed-Call Text-Back

\$325/month · \$650 to start

30 days free before the first monthly invoice.

Requires a signed BAA before go-live.

After-Hours Intake

\$275/month · \$550 to start

30 days free before the first monthly invoice.

Requires a signed BAA before go-live.

What we will and will not do. Requires a signed BAA before go-live. Messages carry no clinical detail. Flat fee only - per-patient compensation can implicate anti-kickback rules. Requires a signed BAA. Collects the minimum necessary and never asks for clinical detail.

Under your brand, not ours. We never cold-call: automated calls only ever go to people who just contacted you. Every text honours STOP immediately, and you can pause everything from your portal in one click. Every lead we bill for is logged with a timestamp you can audit — we bill from our own meter, never from anything you report to us.
