

Sanaku.

The intake you miss is the matter you never sign.

We answer the calls and enquiries you are currently losing — after hours, at lunch, while your team is with a customer — under **your** name and your number.

What the gap is worth, roughly.

About **a quarter of inbound leads at a typical local business get no timely response**, and 78% of customers buy from whoever answers first. At 80 calls a month that is roughly **20 missed**. Recover even **two** of them, at \$3,500 for a signed case (typically \$3,000–\$5,000+), and that is **\$7,000 a month** the phone was already earning you.

Industry averages, not a claim about your business — put your own two numbers in and the arithmetic is the same.

Try it for 30 days before you pay a monthly fee.

You pay the setup fee to have it built — never more than \$750 up front — then run it for a month and watch what it catches. If it does not pay for itself, walk away. You keep every lead it caught and owe nothing further.

AVAILABLE NOW FOR LAW FIRMS

Missed-Call Text-Back

A missed call gets an immediate text from your number, and the reply becomes an intake.

\$750 to start · 30 days free · then \$450/month
plus the \$150 balance of setup on day 31, only if you carry on

500 texts included, then \$0.07 per text · \$100 per qualified lead

After-Hours Intake

Out-of-hours enquiries get a real intake instead of a voicemail box.

\$750 to start · 30 days free · then \$350/month

\$100 per qualified lead

What we will and will not do.

- No legal advice and no fee quotes are ever sent. Per-lead is per intake delivered, never per case signed. Honours STOP immediately.
- No legal advice, no fee quotes, no relationship formed. Per-lead is per intake delivered.

Also in development: AI Intake Agent, Instant Lead Callback, After-Hours Answering and 4 more. Not yet available — mentioned so you can plan, not sold to you today.

[Reply and we'll set up your number →](#)

Prices are per service and current as of 2026-08-03. Every lead we bill for is logged with a timestamp you can audit — we bill from our own meter, never from anything you report to us.
